

EB 95

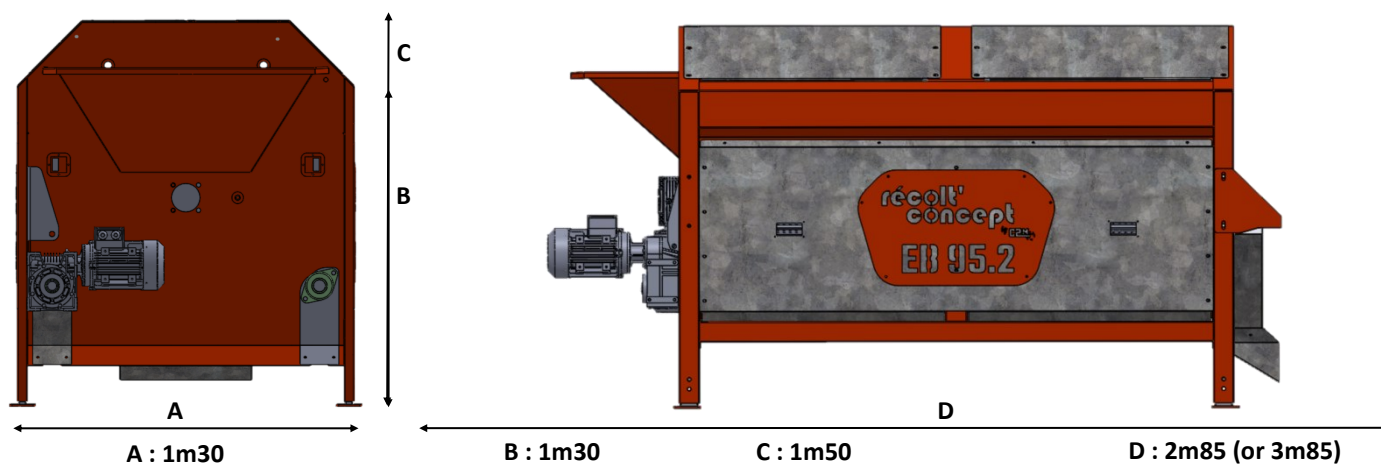

BRUSH WASHER
EB95

C2M
CONCEPT 

A VERY FINE WASHING

Our EB95 brush washer will give you an optimal result of your harvest. Thanks to the friction of the brushes, the last residues present on the shell of the fruit are eliminated. No external defects will appear on the fruit once it has dried. We advise you to place our EB95 washer after an EC95 peeler.

Like its sisters, this washer has a high throughput and a robust and durable design.

TECHNICAL CHARACTERISTICS

OPTIONS

Wash flow control
Economical option: without electrical box

MOTORIZATION	2 motors 2,2Kw + 1 motor of 4Kw
PERFORMANCE	Up to 9m ³ continuous raw nut volume
WATERING	2 booms
DRUM	3m or 2m long and 950mm diameter
WORKING SPEED	Adjustable drum and rotor speed
WEIGHT	1600 kg
